## DEATH ENDS REMARKABLE LONGEVITY OF TWO BROTHERS

### Mike and William Riordan, Nearing the Century Mile Post of Life, Die on Same Day and Are Buried in the Same Grave.

Mike and William Riordan, brothers both past the four score, at ten miles stone from here, died last Sunday, at their humble cabin home, in the neighborhood of Victoria, this county.

Mike, the elder, lapsed but two years of rounding out the century mark, while William, "the youngster," as he was frequently called by his brother, had passed far into the nineties.

William died at 7 o'clock in the morning of pneumonia, and Michael succumbed at noon to senility.

Inseparable from youth, they had traveled the long and rugged journey of life alone, save for a maiden sister, who, though herself feeble from the infirmities of old age in latter years, had been reduced to straitened circumstances.

For two-score years or more they had brought produce to town, and rain or shine, winter or summer, every Wednesday William, astride his horse, would bring his basket of butter.

The two brothers were strict Catholics and never missed a service when it was possible to attend. Funeral services were held at St. Rose church in this city, yesterday at noon, conducted by Father Celestine Brey, the pastor.

The bodies were laid side by side in one grave in the Catholic cemetery.

### WASHINGTON'S ANNIVERSARY

## WASHINGON'S

### ANNIVERSARY

### Celebrated in Grand Style By Epworth League.

Everybody said, "It was a nice entertainment" when they left the Martha Washington reception given by the Epworth League in Ogle's Hall last Friday evening in celebration of George Washington's birthday. It was nice in all its appointments and the large number of guests present enjoyed the entertainment.

Miss Luis Stevens and James Younger, who played well the parts of Martha and George, were exceedingly popular, mingling in the crowd with that old-time cordial manner.

Marta Washington's slaves who were: Harold Murray, Virgil Babage, William White, Lawrence Murray, Harry Newsom, Fra Bohen, David Phelps, Allen Pearce, J. B. Severs were made up dandies and were obedient servants.

They served the luncheon and ices. Misses Margaret Barn, Pamela Moran, Ethel Burn, Mayme Dehaven and Louise Babage had charge of the tables and directed the serving of the guests. The candy and chocolate booth was successfully carried on by Misses Ella Smith and Margaret Skillman.

Mrs. James Younger, Mrs. H. L. Stith and Miss Ola Ellingson gave their services in the domestic part of entertainment and were assisted by Mrs. Cha. Hall, who, although, was not a League, helped them out of a tight place.

The cakes and candies made by the members of the League were delicious and were contributed by several who did not take part in the reception.

A number of the Leaguers were ill and not able to be present.

The hall was artistically decorated by Harry G. Newsom.

Before Martha and George left, Mr. Braband, the city photographer, took a flash-light picture of them and their slaves.

The League took in forty or fifty dollars and cleared about fifteen which will be used for charitable purposes.

The only services to be held at the Lucia Memorial church Sunday will be Sunday School Sunday at ten o'clock.

All the members of the Epworth League are requested to be present at the church Thursday at 7:30 P. M.

## NO NEED OF TREATY

Japanes Dissension Will Be Cured  
Under Some Form of  
Special Arrangement.

## TO WITHOLD THEIR PASSPORTS

Japanes Government Expected to Re-  
frain From Granting Permission to  
Laborers to Come to This Country  
—Californians Express Satisfaction.

Washington, Feb. 19.—The state department  
is being now fairly assured through the passage of the immigration  
bill, that the Japanese authorities will rescind their action ex-  
cluding Japanese pupils from the  
United States, is prepared to take up  
again the negotiations that were al-  
ready in progress with the Japanese government looking to the regulation  
of Japanese immigration into the United States. It is expected that the  
negotiations will result in an agreement  
between the government of Japan and  
that of the United States, which will hold the  
form of a passport to Japanese of the abiding classes seeking  
to enter the United States. For  
several years past the Japanese government  
has declined to issue any such passports, but they have agreed to issue  
them in the form of formal documents if possible. In the short time  
remaining of the present session of congress it is not possible. It is said to  
frame anything in the nature of a  
treaty which would require the action of  
the senate. In fact, it is by no means certain that a formal con-  
vention is necessary to insure the con-  
tinuance of the present Japanese policy  
of refusing passports to the United States to coolies, so it may be  
decided to give this agreement another  
form than a treaty.

The Japanese government reached  
between President Roosevelt, Secretary  
Root, Mayor Schmitz and the  
members of the San Francisco school  
board on the Japanese school  
controversy provides that "all children  
of alien races under sixteen years of age,  
who speak the English language,  
will be admitted to public schools."  
Special schools are to be established  
for children of alien birth who are  
deficient in the elements of the English  
language."

## JAPS RESIGNED

General Public in Island Empire Not  
Much Concerned.

Tokio, Feb. 19.—The passage of  
President Roosevelt's passport bill by  
the senate of the United States was  
seemingly unimportant to the Japanese.  
The leading newspapers today  
explained that this action by the  
United States government is perfectly  
legitimate and in accordance with  
treaty stipulations. It is also pointed out  
that the promise of success of the  
judicial procedure in the school ques-  
tion is lessening. The newspaper  
has thus far refrained from making  
comment on the latest developments  
in Washington. It is believed that the  
immigration committee will combine to  
attack the government's attitude if an  
agreement is reached with America on  
the basis proposed. It is thought  
that the general public, while regretting  
the solution of the San Francisco  
school question taking this form, will  
calmly resign itself to the situation.

## PRISONER'S OWN STORY

Harry Thaw Said Providence Led Him  
to Kill White.

New York, Feb. 19.—"I never want  
to shoot the creature. I never want  
to kill a foul creature, destroying the moth-  
ers and daughters of America, but I want  
him to trial. I wanted to get him into  
court—to bring him to justice. But  
providence took charge of it; it was  
an act of God."

That is Harry Thaw's own story  
of the killing of Stanford White, was  
told by him to Dr. Britton D. Evans,  
the atheist, last August, in the Tomb.  
Monday Dr. Evans repeated the prisoner's word to the jury  
which is trying him for the murder of  
John E. Leyburn, Republican,  
attorney. Justice fought hard last week against the introduction  
of the evidence which the defense believes is conclusive proof that  
Thaw did not know his act was wrong.  
Once the testifying physician had de-  
clared that his opinion was now  
that the man he made the statement  
to him, however, the rules of evidence permitted the introduction  
of the prisoner's words.

## EIGHT PAGES.

WEDNESDAY, FEBRUARY 27, 1907.

Washington was the richest man in the United States when he died—worth about \$2,000,000. He was a hard-working, industrious man. He inherited an estate, acquired more by marriage, accumulated some by foresight, increased it by speculation and by industry and the rise in values of his land added another big slice to his fortune. Most people in this day and time have the impression that he was a poor man; that he had very little of this world's goods. The orators, especially, orate on this phase of his character. They do for effect and to switch the minds of the people from his leading characteristics which were harmony, honesty, industry and frugality. What we mean is more of Washington's leading virtues—pure patriotism, love and affection for our country for its own sake and the acceptance as permanent occupants in our hearts and minds of the virtues which Washington regarded as all that was necessary to make us a great and happy people, and which he declared to be "the great and essential pillars of public felicity"—harmony, honesty, industry and frankness.

## PRESIDENT FINLEY, OF SOUTHERN RAILWAY, ADDRESSES SUBORDINATES

The representatives of the Freight and Passenger Departments of the Southern Railway Company were brought together in Atlanta on February 18th, at the request of President Finley, who addressed them in part as follows:

Your duties bring you into personal and daily contact with those along the lines of the Southern Railway, and I as one who has filled positions which some of you are now filling, propose to speak to you briefly of the relations of freight and passenger agents to the public. Your duties are of a two fold nature. You owe duties to the railway company by which you are employed and you owe duties to the public. These double duties do not in any way result in conflict or divided allegiance, for it serves the railway best who serves the public best.

The general officers of a railway have unfortunately, too few opportunities for meeting and talking with the people who are located upon the road and its transportation services. The road having business relations with the road, as well as with other departments, it is a rule, comes into personal contact with the local representatives of the traffic and operating departments. The general officers have no opportunity mapped out by the general officers, but the application of these policies to specific transactions must be entrusted in the main to men in the field. It follows, then, that you have in a substantial sense the reputation of the Southern Railway Company for fair and just dealing your hands. Whether the company shall be popular or unpopular depends in very large measure upon your attitude toward the public and upon your treatment of those doing business with the road. It is of supreme importance, therefore, that you, who daily come into intimate personal contact with the public, bear in mind constantly that it is the ravaging policy of the company to be just and to do all that is right.

To the passenger and the occasional traveler as well as to the large shipper and the regular traveler; that you should be perfectly frank in all business dealings; that you should always be considerate and patient, and that you should do all in our power to make the services of the road satisfactory, to those for whom they are performed.

All classes of the public should be treated with courtesy and respect, every reasonable accommodation. Even in the most difficult circumstances, an understanding of the public should not be dismissed with contempt. He may not know what he asks is either impossible or impracticable; a few words of explanation pointing out to him why his request cannot be complied with will send him away a friend for the development of the natural

resources of the South and for the expansion of all lines of industry. The men in the freight and passenger departments are in a position to do much to bring about a mutual good understanding and this harmonious co-operation for the upbuilding of the territory traversed by the lines of the company. Your careful attention to the wants of the people and your considerate treatment of everyone having business with the road will serve as a constant object lesson of its interest in the individuals and communities along its lines.

My personal experience convinces me that when a rule is as rule is half-minded and when fully informed can be relied upon to deal justly with the transportation interests.

I feel sure that it is only necessary to direct your attention to the importance of your relations to the public, and that we shall have your loyal support in carrying out what is the policy of the company—the building up of a thoroughly efficient transportation system on the solid basis of harmonious relations with the people along its lines.

There is another point to which I desire to call your special attention:

The management of the Southern Railway has been confided to us as a high and sacred trust. This trust is not confined to the President, the general officers or the Board of Directors. It applies with equal obligation, in his sphere of action, to the humblest employee as does to the highest. Each has his duty to perform and, in the performance of that duty, he represents the road and its management. The performance of a true man in respect to his duty.

The brakeman cannot perform the President's duty, nor can the President perform the brakeman's. Each must do faithfully his own duty, and only in the honest and faithful performance of duty by all can there come a proper measure of success.

The railway and the public are entitled to the very best that is in our employees, from the highest to the lowest;

they are both entitled to demand that there shall be no lukewarm or limited service, but that the heart of your employees shall be in their work. All of us have voluntary undertaken a duty in respect to this property and the railway and the public should receive from each of us full and faithful performance.

I wish to build up among all our employees a spirit of interest and co-operation—a spirit in which each man will recognize that he is identified with the railway and will earnestly and honestly work for its welfare. Only in this way can we successfully administer the trust which has been confided to us.

#### "AUNT POLLY"

Polly Board, (colored), departed this life Feb. 16, 1907. She was fifty years old. She professed Christianity nineteen years ago during Rev. Talbut's pastorate.

Aunt Polly had been sick all the fall and winter and last Monday she had a relapse and grew steadily worse until the end came. She told her daughter, "I will not get well but the Lord has prepared a home for me in Heaven." When her son, Clarence, asked her if she was prepared to die, she said, "Yes, I ask the Lord to spare me to see my children and he is good and kind." She was a kind and devout mother and a truthful woman.

Her last words were, "How I want to see my Mary." She leaves to mourn her death two daughters and many relatives. Besides these she had many blackbirds among the white people who highly respected her. Among them are Mrs. A. R. Fisher and Mrs. Frank Faife. The following are the words of a friend.

Well done, thou good and faithful servant, enter in the joys of thy Lord. Truly Aunt Polly earned this great promise of God, it is attested by those who knew her best, of her love and faith. She had great kindness in her heart, if she had nothing else to give it would be a cup of cold water or gather flowers and place them in your house, or if she thought you were tired she had a kind word and helping hand. Many little white arms were put around her neck with the words "You are my black mammy".

Her energy, her devotion in her family were known to all, and as they gathered around her dying bed she looked up and smiled and said "The Lord has been so good to me". May we rejoice in the hope of meeting her again some day for it was through the Spirit she waited for the hope of righteousness of faith.

### TWENTY PERSONS WERE KILLED

Electric Train Going Seventy Miles  
an Hour Leaves the Track and  
Death Claims Many Victims,  
Most of whom Were Women.

New York, Feb. 18.—Twenty-four railroads and 18 passengers were seriously injured, in the result of the week of an electric express train on the New York Central railroad at 205th street and Webster avenue, Saturday night. Of the large number of injured, fifty are according to hospital and police reports, seriously hurt and the death-list may be increased within the next twenty-four hours. Most of the others are suffering from a species of shock, and will recover. The cause of the week is still a matter of dispute.

Motorman Rogers of the wrecked train, according to the coroner, has made a statement that he was running on schedule time when the accident occurred. At midnight on Saturday night, the train was seventy miles an hour. Rogers, said the coroner, declares that he did not know anything was wrong until an eighth of a mile beyond the place of the dent. It is thought that a spreading of the rails caused the accident. The train struck one of the motors in a section of the track with force enough to cause it to jump off. The smoker followed and swung the car following completely off the track, breaking the coupling. When the rear cars broke loose they ran wild for a short distance, then stopped.

When the wreck occurred the three rear coaches, completely filled with passengers, mostly theater parties and commuters, were thrown on their right side just above a sharp curve at Woodlawn Road bridge. People were seen to be voices from the cars and the most of those who were killed were pitched through the windows as the cars slid on their sides. The third rail held for a time but finally broke with a flash and a roar seen and heard for a great distance. The cars were torn to pieces and the road and the main track the bodies were wedged. They were held here as the cars passed along, and in this way were terribly mangled. Among the passengers was a party of girls from Miss Knobell's fashionable school at Bronx Park, several of whom were killed. Most of the dead and injured are women.

Death gripped some of the passengers quickly and mercilessly. Others had their limbs torn off and others with fractured skulls were stunned and lay groaning in agony. And when the motor cars, with air-brake set, finally came to a stop the shattered cars remained on their sides with their passengers piled on top of one another, the dead and injured mixed together with seats and splintered iron and woodwork piled upon them.

### LOUISVILLE MEN "SHOW SPEED"

Greater Louisville Exposition Opening  
March 18 For Two Weeks—Will  
Have Creators, Famous Musicians,  
Baseball, Low Rates — In Fact  
Everything of Interest.

As the time for the opening of the Greater Louisville Exposition draws nearer, the interest in the great event in this and all other sections of the state of Kentucky, as well as throughout the South, is greatly increasing. The visitors to Louisville will return home and give expressions of deep interest in the exposition and pride in the enterprise and public spirit of the exposition. Those who are working so hard in the interest of their state and city, without prospect or their fate or any pecuniary gain.

Showing what pride they take in their city's great enterprise, the merchants and manufacturers of Louis-

FRED LEVY,  
President of the Louisville Commercial Club, and Vice President of the Greater Louisville Exportation Company.

Ville have joined in the enterprises and stationery almost over with advertising matter concerning the exposition, and the title, "Greater Louisville Exposition," seems to appear in the most unexpected quarters at the most unexpected time. Louisville "drummers" who visit here let no one escape, and if for no other reason than the people of Louisville will be bound to go to Louisville between March 18 and 30 to see what has been so widely heralded. This will be a matter of easy accomplishment, because the railroads of Kentucky have announced a rate of one fare for the round trip, with three sellers and eating car, and the ticket good returning until April 1. Besides these splendid rates, many single-day excursions will be run, and it is said by the railroad officials composing the Southeastern Passenger Association that the rates for these excursions will be the best ever offered for a similar trip.

The duration of programme of the exposition is now being engrossed in preparing the plans for various special days. Interesting programmes will be arranged for these special days, and the music by the great Creator's hand will be an added attraction to the exposition twice daily. Miles bands of all kinds and interests are recruited everywhere as being absolutely the foremost organization of its kind, and the twice daily concerts will be included in the extraordinarily low price of admission, which will be twenty-five cents for adults and fifteen cents for children. For special days, Sir Cresswell's very graciously consented to make his programme typical of the occasion. The following days have been decided upon, and plans are in train to make each one a unique success: Dedication Day, Edison Day, Children's Day, Greater Louisville and Falls Cities Day, All-American Day, Safety Day, Transportation Day, Woman's Day, Music Day, Music Day, News-paper Day and Getaway Day.

It will be of interest to lovers of the national game to know that the Louisville baseball team will contest with two major league teams during the exposition, playing five games in all. It can be seen that the people of Kentucky will have a splendid opportunity of seeing the Greater Louisville Exposition, bear Creator's famous band, and see such magnificent baseball as the Chicago National League team and the Boston Americans. Boston will play three games, March 23, 24 and 25, while Chicago will play two games, March 28 and 29.

There is no citizen of Louisville who does not stand ready to extend a warm and brotherly welcome to his fellow Kentuckians from any part of the state. Likewise a warm and hospitable welcome will be extended to all exposition visitors.

The hotel keepers in Louisville have announced to the state in particular and to the South in general that there will be no advance in charges during the exposition period. The forbearance of these public entertainers has been noticeable in the past, and it will likely redound greatly to their profit in the near future.

Missing Treasurer Accounts for the Missing Bonds.

New Briton, Conn., Feb. 22.—President Philip Corbin of the Savings bank of New Britton has made public a letter received from William F. Walker, the missing treasurer, mailed to New Britton about two weeks ago just before he disappeared. In the letter Walker states that he was duped by men who purported to be representatives of a bond house with which the Savings bank did business. He said that it was stated that there had been a large amount of money deposited in the bank, and over issue of certain others that Walker had purchased, and some of which the bank had held for a long time. Walker finally turned all the bonds over to three men and later discovered that the men did not represent the bond house at all. "The amount involved is very large," he says, "and the matter has so upset me that I am nearly frantic. My head is so wild that I cannot tell you just what the bonds were. I want to assure you whatever may be the outcome of this trouble that I have not been paid by it or by any of my transactions with the bank one dollar. No gain has been received by me, and no loss because I have been the gainer."

### SAOLON KEEPER HELD

Accused of Being Responsible for Engineer's Death.

Paris, Ill., Feb. 22.—After two weeks of investigation, the coroner's jury decided to investigate the death of George Hartman, a California division engineer, rendered a verdict, ascribing the responsibility to Perry Lansaw, a local saloon keeper. Lansaw was shot on the night of Jan. 22 as he was trying to gain entrance to the saloon. His death ensued on Feb. 6, and he died of blood poisoning. He maintained from the start that Lansaw shot him, but as to how there was no direct evidence, as no one except the wounded man actually saw the shot fired, and it came from inside the building.

Lansaw, who denies all knowledge of the killing, had been sleeping in the saloon that night, and there was no one else in the building. He was arrested immediately on the return of the coroner's verdict and given bond for his appearance in the sum of \$2,000.

### The Cause of Many Sudden Deaths.

There is a disease prevailing in the country most dangerous because so deep-seated and insidious. Many sudden deaths occur every day. It is heart disease, pneumonia, heart failure, or apoplexy. It often comes on in the form of kidney disease. If the kidney trouble is allowed to advance to the point where the kidneys fail to filter the blood will attack the vital organs or the kidneys themselves break down and waste away to nothing.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickly by a proper treatment of the kidneys. If you are feeling badly you can make an appointment with Dr. Klimmer, the great "Swamp Root," the greatest kidney, liver and bladder remedy.

It corrects inability to hold urine and a slight incontinence and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the sweet smelling effects of the medicine are realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp Root is pleasant to take and sold by all druggists—five-cent and one-dollar sizes bottles. You may

have a sample bottle of this wonderful new discovery sent free by mail. Address Dr. Klimmer & Co., Birmingham, N. Y. When writing mention reading this generous offer in this paper.

Don't make any mistakes about the name, Swamp Root. Dr. Klimmer's New York and the address, Birmingham, N. Y., are ever before you.

### This is Worth Saving.

The following simple home-made

remedy is said to relieve any form of

Rheumatism or backache, also cleanse

if taken before the stage of Bright's disease: Fluid Extract Dandelion, one-half ounce, Compound Kargon, one ounce, Compound Syrup Saraparilla, three ounces. Mix by shaking well in a bottle and take in teaspoonful doses after meals and at bedtimes.

A well known authority states that these ingredients are mainly of vegetal extraction, and harmless to use, and can be obtained at small cost from a good prescription pharmacy. Those who think they have kidney trouble or suffer with lame back or weak bladder

Rheumatism, should give this prescription a trial, as no man can possibly follow its use and it is said to do wonders for some people.

### Adam's Peppermint.

There is some difficulty as to the size of Father Adam's vocabulary. As he had to invent to fit the necessities that arose. It is mind-boggling what might be called a working vocabulary.

Presumably it isn't equal in dimension to that of many other words.

It is larger than a man's new word today. Ad," she would say, and then the two would talk it over and perhaps smooth it down or polish it up. And maybe Adam would think up a new word while he paraded up and down in his bare feet through the clumps of jungle, or across the front yard to see if he could get one out of his head.

He didn't talk much to suggest new words in those days. When Adam stumbled his toe or stepped on a hornet his vocabulary would promptly receive several additions that were of the more forcible than the elegant class.

Adam's vocabulary was so small

that he meant to pay for this colored woman.
